Google Ads Report

Sahara Trailers – Feb 2026

Prepared by: Speakeasy

Date: 27. 02. 2026

Sahara Trailers - Monthly Report (to-date)

Month	Cost (A$)	Impressions	Clicks	CTR	CPC (A$)	Conversions	CPM (A$)
Jan 2026	3,568.70	134,001	1,277	0.95%	2.79	132.83	26.63
Feb 2026	2,397.18	58,158	718	1.23%	3.34	72.50	41.22
Total	**5,965.88**	**192,159**	**1,995**	**1.04%**	**2.99**	**205.33**	**31.05**

Insight: 2026 is off to a focused start for Sahara Trailers. While February saw a strategic reduction in total spend (approx. 33%), we observed a significant 29% increase in Click-Through Rate (CTR), rising from 0.95% to 1.23%

Sahara Trailers - Quarterly Report (to-date)

Quarter	Cost ($)	Impressions	Clicks	CTR	CPC ($)	Conversions	CPM ($)
Q1 2026	5,965.88	192,159	1,995	1.04%	2.99	205.33	31.05

Insight: With a total investment of A$5,965.88, the account has successfully generated 205.33 high-intent conversions. Most notably, the average CTR of 1.04% for the quarter indicates that our creative and targeting strategy is successfully cutting through the competitive landscape

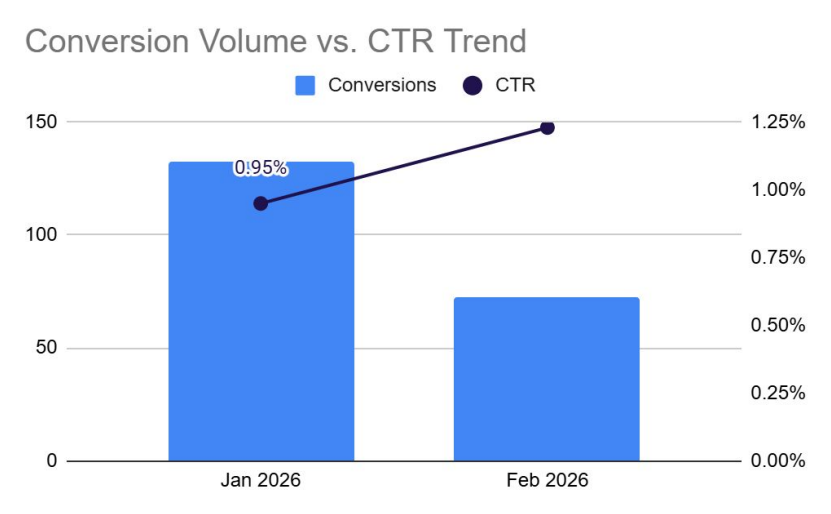
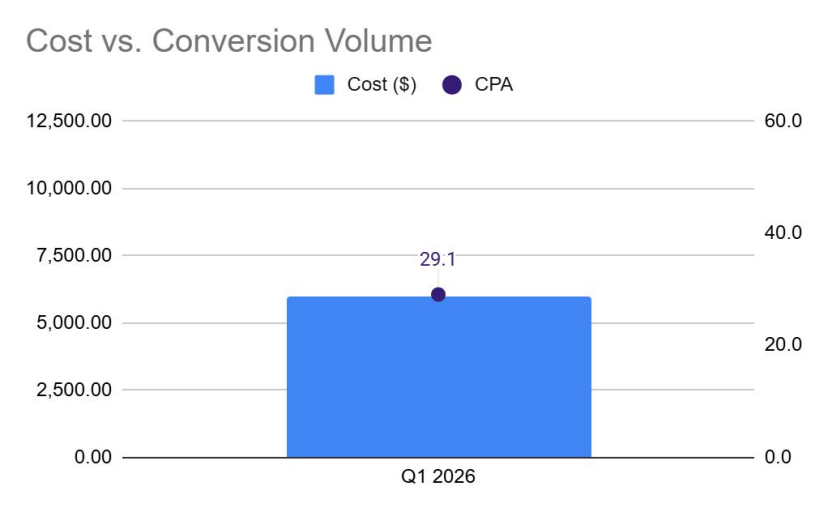
P Max - Local Store Visits 23.2.26	8.62	27,336	6	0.02%	1.44	0	0.32

Monthly “Efficiency” Trend



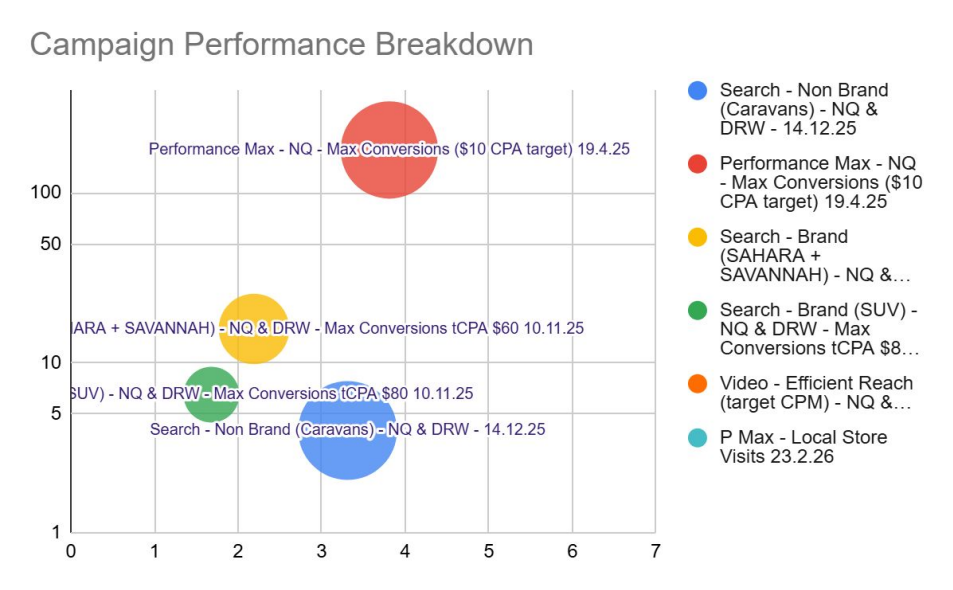
Despite a lower volume of impressions in February, our engagement quality improved. The CTR jump to 1.23% indicates better ad relevancy and audience targeting compared to January

Quarterly "Scale" Story



Our current CPA of A$29.10 is well-positioned for the industry average. This stability provides us with a clear 'green light' to identify and scale the highest-performing campaigns heading into March

Campaign Breakdown: The "Contribution" Map



The Efficiency Leader (Performance Max - NQ): This campaign is the undisputed "conversion engine" for the account, delivering **179.01** conversions—nearly 90% of total volume—at a highly efficient estimated CPA of **$11.69**. Given its massive lead in volume and efficiency, this campaign is the primary candidate for aggressive budget scaling to maximize ROI.

The Engagement & Branding Powerhouse (Search - Brand): Your brand-focused campaigns (SAHARA + SAVANNAH) are showing exceptional creative resonance, with a massive **25.20% CTR**. This indicates extremely high intent and strong brand recognition in the market, allowing you to capture leads at a low **$2.19 CPC**.

Optimization & Reallocation Opportunity (Search - Non Brand): The "Non Brand (Caravans)" campaign currently represents the highest spend at **$2,169.34** but has only yielded **4 conversions**. With a high cost-per-acquisition compared to the Performance Max campaigns, there is a significant opportunity to reallocate this budget toward the higher-converting "Efficiency Leader" to lower the overall account CPA.
